MDM is your complete solutions provider for hospital TVs, patient education and entertainment, digital signage, and satellite TV service. In addition to our complete line of equipment, we also specialize in all-in-one solutions that provide your hospital with a strategy for your current needs while planning for future technology and budgetary goals.
MDM Healthcare provides more than hospital equipment – we provide comprehensive, cost-effective solutions that improve patient experience and decrease your worries. All with one expert team for hardware, software, solutions, work flow and support.

**Project Management**
MDM has the solution and team to get things done
- Consulting
- Installation
- Implementation
- Service and maintenance
- Training

**System solutions that improve your patients experience**
