JOURNEY:
ENHANCED
PATIENT
EXPERIENCE
Scalable and affordable **interactive solutions** which provide the ultimate **patient experience**!

MDM’s Journey patient experience solution uses cloud technology to configure the delivery of patient education and engagement tools when and where it is best for staff and patients. Journey can be accessed in the hospital room, clinics, and even follow the patient and loved one’s home on their smart devise, email, and/or patient portal.

**What Journey Does**

- Engages Patients and Families in their care
- Provides pre and post operative education as well as disease, wellness, and safety education modules
- Delivers the right education at the right time
- Accessible for patients and families in:
  > Hospitals
  > Clinics
  > Homes
- Delivers patient satisfaction and comprehension surveys
- Interfaces with your existing clinical systems, ADT, and EMR
Why Journey

• Provides care teams with the ability to educate patients in a consistent and effective manner as well as documentation that can be inserted into the patient’s health record

• Easy to use for the care team as well as the patient

• Extends the education provided beyond the hospital stay by sending relevant content via emails and/or text messages to the patient at home

• With the ADT interface, the solution will follow the patient as they are transferred within the facility

• Assesses patients comprehension, improves patients health efficacy

• Allows hospital staff to search the education library and view content prior to prescribing

• Can provide soothing relaxation content for aiding in pain management and addressing noise concerns

• Inform and enlighten all guests of the healthcare facility about events and offerings above and beyond patient education
Educational Content

FOR YOUR JOURNEY SOLUTION

Journey provides your patients access to engaging, easy to understand education modules at their bedside, in the clinics, patient portal, and even in their homes. Content is available in multiple languages.

- Patient education content is in video format, developed at a 5th grade level or below
- Allows for consistent teaching across the healthcare continuum
- Video education works well for all types of learners
- Closed Caption is available for the hearing impaired
- Over 3000 videos to choose from
- Clients can easily upload their own content to the Journey solution

Content Storage

Delivers Significant Capital Cost Savings
- Eliminates the need for large servers and racks

Lowers Operational Costs
- Reduced maintenance needs
- Decreases the cost of managing in-room computers

Eliminates the burden on your IT department for
- Administrating hardware and software
- Supporting hardware and software
- Managing security and anti-virus protection

The Journey solution is cloud based!
Technology gives your patients meaningful health education tools that lead to better outcomes, a more engaged patient and loved ones, efficiency for staff, consistency for the health system, and higher patient satisfaction.
Journey // Enhanced Patient Experience

Cloud based patient experience solution
Leverages hospitals existing cable infrastructure
Navigated by in-room pillow speaker, telephone, auto prescribe, and scheduled play options
Patient education videos can be assigned based on specific diagnosis, treatment, request, physician, DRG – ICD10 codes, or safety risk
Delivers personalized patient information in real-time
Engaging patient television screens created based on the hospital brand, pediatrics, adult patient, Mother – Baby, Veterans, and other unique patients
Two-way communication between the patient and staff
EMR, ADT, Single sign on, Dietary, and other Integrations
On Demand movies
Relaxation videos in HD format
Reports available in real-time allows for usage monitoring at every level
Comprehension assessments with feedback
One or more schedule play channels available for a relaxation loop, dietary menus, general health, or any topic requested
Video content may be delivered to the patient and loved one’s email, smart phone, and patient portal
24/7/365 remote monitoring
On-Site training for administrative users, super users, and nurse educators
Over 3000 patient education videos to choose from
Ability for the hospital to upload their own content
Ease of use and intuitive for care teams and patients

FEATURES
MDM Healthcare offers a complete line of healthcare televisions to meet all your hospital and long-term care facility needs. As one of the largest distributors of healthcare televisions throughout the United States, we work with hospitals and healthcare providers of all sizes. Our products include patient room UL-listed healthcare-grade LCD televisions, including small, personal, swing-arm TVs, and accessories.

2 Year Limited Warranty (Parts and Labor)
A sleek LED display, designed specifically for healthcare, PDi E-Series televisions deliver stunning HD entertainment and a large screen display that can serve as a valuable patient education and connectivity portal between the facility and patient.

**Made to be Modular**

Expand entertainment with PDi’s easy-to-install DVD Module or interactive patient system Module for Android™ that connects to any E-Series display.
PDi Persona P14W
14” Arm Mounted Patient Display

The Persona P14W arm-mounted display reduces neck, back, and eye strain by providing a high quality viewing experience in close proximity to the patient. The Persona P14W display is equipped with MPEG4 and Pro:Idiom, giving access to more HD channels with DirectTV or Satellite programming. It’s simple backlit touch keypad easily controls volume, channels and settings.

Key Features
- UL Listed
- LCD Widescreen HDTV
- LED Backlight Keypad
- USB Cloning
- Touch Keypad Controls
- Anti Microbial Glass Screen and Cabinet
- Low Voltage
- Easy USB Cloning
- Back case available in Cream, Black, and Grey

PDi medTAB19
A 19” Bedside HDTV with a Simple, Easy-To-Use Interactive Patient System

The simple, interactive patient system comes out of the box ready for patient use within minutes of set-up. medTABs are made to fit to PDi swing arm mounts, chair mounts, or other rear mount options. Choose between two display sizes, 14” and 19” personal touch screens, which offer the equivalence of a 90” wall TV viewing experience.

Key Features
- With one tap of the TV button, medTV transports the patient to the channels they are familiar with.
- Launch the patient into the world wide web.
- Patients can log into their favorite social media channels and easily connect with their family and friends the same way they do at home!
- Patients can choose between 10 pre-loaded interactive games that are sure to delight the young at heart!
- The patient can stay up to date with the headlines. medTV has curated the top network news sites, access in just a few taps.
- For patients who just can’t break away from work or personal e-mails

PDi medTV 19”
19” Arm-mounted Patient HDTV

BIG, BOLD AND BEAUTIFUL

The large numeric keypad is easy for patients to see and touch to change channels and volume. This personal 19” display offers a wide viewing angle for maximum patient comfort, and delivers the experience of a 90” wall TV across the room.

BUILT FOR HEALTHCARE STANDARDS

medTV19 is designed for infection control. The glass front can withstand rigorous cleanings and the antimicrobial plastics help limit HACs. Compatible with PDi low-voltage power supplies and swing arm mounts or designed for rear mount to a standard 75x75 VESA pattern.

DELIVERS PATIENT SATISFACTION

Pro:Idiom® makes it easy to keep every patient entertained with more HD channels. This securely mounted TV display reduces neck, back, and eye strain. Patients enjoy the front-facing speakers and headphone jack.

Features

QUAD CORE SOC*
Built into this signage is a Quad Core Processor. This is the engine behind the webOS platform that allows fast loading of apps and menu’s, as well as multi-tasking between apps. The result? Quick access to content and smooth playback.

WEBOS 3.0
With webOS 3.0 you can build apps and construct your own customised signage solutions using the LG Software Development Kit (SDK) and display logos during screen idle time (i.e. boot up, lost signal).

GROUP MANAGER
Content can be created, distributed, and controlled by a signage without a dedicated PC or server.

PBP (PICTURE-BY-PICTURE) / PIP (PICTURE-IN-PICTURE)
PBP (Picture-By-Picture) and PIP (Picture-In-Picture) features enable you to compose various layouts for several digital devices.

- Standard 3-wire cross room wiring
- No batteries
- Convenience of home remote in hospital setting
- Available with or without nurse key
TELEVISION DISTRIBUTION SYSTEM
RF Distribution System

MDM eliminates the confusion in distribution of off-air (local) TV signals and DSS satellite signals (cable) throughout your hospital or healthcare facility. Experts in television system technology and installation, MDM’s staff works with you to evaluate your current system, assess the capabilities of your operations, and determine the requirements needed to meet both present and future needs.

We custom design and build or redesign and upgrade your RF Distribution system to meet your hospital or long-term care facility’s needs. No system is too large or too small for MDM’s experienced engineering team.
We can **upgrade** your existing **Television System** into a modern delivery platform

MDM Healthcare is a complete solutions provider of patient-focused equipment and network services for hospitals and healthcare facilities of all sizes. Since 1990, we’ve provided industry-leading customer service, professional project management, and the latest technology available for healthcare customers throughout the U.S. Our commitment to providing complete solutions has led to partnerships with professional solution providers, including Z-Band, to offer the industry’s most advanced healthcare television RF Video distribution systems.
What is a **Z-Band** Television Distribution System?

Z-Band manufactures and sells an “electronic box” and a companion device which together make up Z-Band’s state-of-the-art, RF Video Distribution System. The System is composed of an active video hub, the “GigaBUD” and a remotely powered balun, the “GigaBOB”. The two units work in conjunction with one another to amplify, split, and condition the RF signal from a satellite, cable TV provider, or internally generated video source and distributes the signal to televisions, video walls or monitors.

Unlike an IPTV system, the Z-Band RF Video Distribution System is not incorporated into the enterprise’s server/switch and because it passes an RF signal, the system does not impact the network bandwidth in a facility. The TV signals are distributed on a Category 5e or better cabling infrastructure that adheres to the “568″ international wiring standard.

---

## The Value of a Z-Band Television Distribution System

- Network cable is less expensive per foot than coax
- Equipment utilizes rack space instead of wall space – no more plywood backboards
- Only two pieces of Z-Band equipment are needed; a video hub and a balun
- Only one signal level to set and monitor – no more RF engineering support
- Less time spent on installing TVs – no more taps and splits with coax. It is all done electronically from the technology closet
- Adding additional TVs is simple – plugging a cat jumper cable from the video hub to a patch panel and adding a balun at the new TV location
- No more intermediate technology to monitor and replace
- Built in fiber receiver option saves 1 U of rack space when utilizing a fiberbackbone
- Eliminates the need to keep balancing the distribution amplifiers

  - Computers w/Tuner Cards
  - GigaBUD’s Free Hanging & Rail Mount
HEADEND EQUIPMENT

MDM offers quality professional services to take the worry out upgrading or installing new systems. Our healthcare facility products and services include:

- High-Definition Headend Systems & DirecTV®
- Worry-Free Installations & Project Management
- Quality Customer Service & Consulting Services

Our experience in healthcare products and HDTV systems gives you an unsurpassed advantage with unrivaled customer service and competitive prices. MDM’s professional staff will work with you to plan, implement, and manage your facility’s television, broadband Internet, and other digital media and content initiatives.
MDM’s modular digital headend system is designed to bring your facility the advantages of high-definition, small-dish DSS programming. Each system is custom-engineered to your needs, tested, and shipped fully assembled to make installation quick and easy. Included are all racks, receivers, antenna, modulators, splitters, and combiners required to produce proper RF output levels.

**DSS DIGITAL HEADEND**

- Each channel has an individual receiver and modulator
- All components are rack-mounted and shipped ready to connect to MATV system
- Frequency agile modulators allow easy change in channel lineups
- Local maintenance available
- Headend can be leased or purchased
DIRECTV® has the widest selection of sports, informational, and entertainment programming available anywhere. Whether your need is entertainment or business-oriented programming, we carry 100% digital quality video and audio offerings. With over 160 channels of the hottest Hollywood blockbusters, original series, and sports programming, patients can choose from a great variety of specialized TV packages like Family Favorites, and more.

DIRECTV® PROGRAMMING PACKAGES

- High-Definition (HDTV) programming*
- CNN, Fox News, Weather Channel
- NBA TV, NHL, and NFL
- ESPN, ESPN2, FOX Sports, and more

**Single Room Solutions**  
**Single-Zone Systems**

- ENERGY STAR® Certified  
- Available in a variety of indoor unit styles  
- Low sound levels  
- Quick and easy to install  
- Attractive designs  
- Powerful performance in cooling and heating: up to 27.5 SEER and 12.5 HSPF

**Multi F, Multi-Room Solutions**  
**Multi-Zone Systems**

**Multi F MAX Outdoor Unit**

- Supports anywhere from 2 to 8 indoor units  
- Dual, tri, quad, and eight zone systems available  
- Energy-efficient inverter operation: up to 22.0 SEER  
- Space-saving indoor units

**LG PTAC UNITS**

**PTAC Heat Pump 208/230V**  
**HDUC Series**

Available from 7,000 - 15,000 BTUs. Power cord purchase is required for heating

**PTAC Heat Pump 265V**  
**HD3B Series**

LG 42" Packaged Terminal Air Conditioner, 265V, Heat Pump, R-410A

Available from 9,000 - 12,000 BTUs.

**PTAC Heat/Cool 220V**  
**CDUC Series**

LG 42" Packaged Terminal Air Conditioner, 220V, Heat/Cool, R-410A

Available from 7,000 - 15,000 BTUs. Power cord purchase is required for heating

**PTAC Heat/Cool 265V**  
**CD3B Series**

LG 42" Packaged Terminal Air Conditioner, 265V, Heat/Cool, R-410A

Available from 9,000 - 12,000 BTUs.
ORDERING OPTIONS

MDM Healthcare products and parts may be ordered Monday - Friday, 8:00 a.m. through 5:00 p.m. EST. You may also contact MDM’s Sales Representatives via MDM’s website 24 hours a day, seven days a week.

www.mdmhealthcare.com

**Via Phone**  1-800-359-6741

Call us from anywhere in the United States toll-free at 1-800-359-6741 and outside the United States at (904) 241-2340 to place an order or speak with a Sales Representative.

**Via Fax**  1-866-504-2867

Fax MDM at 1-866-504-2867 for Service, Returns and Tracking Shipments or to reach MDM’s Customer Service and obtain all the information you need to facilitate returns.

**Via Email** customerservice@mdmcommercial.com

Send an email to MDM for Service, Tracking Shipments, or Returns and obtain all the information you need.

**Via Website**  www.mdmhealthcare.com

View our products, request a quote or consultation, or chat with us online 24 hours a day, seven days a week.

**Payments**

For payment with order, please send check or money order.
